

IF-14

Solder wire

Interflux® IF 14 series are colophony free, absolutely halide-free, no-clean solder wires with easily removable residues in SnPb(Ag) and lead-free alloys.

**Recommended
for:**

**HAND
SOLDERING**

Lead-free Soldering
Lead-based Soldering

It has a substantial compatibility with conformal coatings as compared to conventional solder wires.

**Absolutely
Colophony free**

Low Residue

**No Clean - no post
cleaning needed**

**Low soldering
tip contamination**

**Absolutely
Halogen free**

**Brushable
Residue**
